

Pre-Purchase Property Analysis

Overview

Purchasing land can be a daunting decision, even more so if you are planning to manage this land for wildlife and hunting. Wildland Systems can help with our Pre-purchase Property Analysis.

We will explore the land with you and discuss your desires for the future of the property. We will share our knowledge on various topics such as deer sign and forage availability/quality, as they are presented by the land. You will receive guidance as to the processes necessary to reach your wildlife goals. By the end of our exploration you will have a clear picture concerning the state of the property as it relates to wildlife and what the future may hold.

You will then receive a report that summarizes our visit to the property, our thoughts on the land's potential, and recommendations for the future. Using this information you can make a more informed decision on whether you wish to purchase the property.

Estimated Costs

\$500 + travel

*\$350 + travel**

**If you do not decide to purchase the property in question, we offer the next Pre-purchase Property Analysis at a discounted rate*
